

**West Fork Trinity River Above Bridgeport Reservoir**

Segment: 0812 Trinity River Basin

<b>Basin number:</b>	8
<b>Basin group:</b>	B
<b>Water body description:</b>	From a point immediately upstream of the confluence of Bear Hollow in Jack County to SH 79 in Archer County
<b>Water body classification:</b>	Classified
<b>Water body type:</b>	Freshwater Stream
<b>Water body length / area:</b>	85 Miles
<b>Water body uses:</b>	Aquatic Life Use, Contact Recreation Use, General Use, Fish Consumption Use, Public Water Supply Use

<b>Standards Not Met and Concerns in Previous Years</b>				
Assessment Area	Use	Support Status or Concern	Parameter	Category
Lower 25 miles of segment	Aquatic Life Use	Not Supporting	depressed dissolved oxygen	5b
Lower 25 miles of segment	General Use	Not Supporting	chloride	5b
Lower 25 miles of segment	General Use	Not Supporting	total dissolved solids	5b
Upper 60 miles of segment	General Use	Not Supporting	chloride	5b
Upper 60 miles of segment	General Use	Not Supporting	total dissolved solids	5b

**Additional Information:** The public water supply use is fully supported. The contact recreation and fish consumption uses were not assessed.

This segment was identified on the 2000 303(d) List as not supporting the general use due to chloride and total dissolved solids. Because there were insufficient data available in 2002 to evaluate changes in water quality, this segment will be identified as not meeting the standard for chloride and total dissolved solids until sufficient data are available to demonstrate use support. There were insufficient data for 2004.

This segment was also identified on the 2000 303(d) List as not supporting the aquatic life use due to depressed dissolved oxygen. Because an insufficient number of 24-hour dissolved oxygen values were available in 2002 to determine if the criterion is supported, this segment will be identified as not meeting the standard for dissolved oxygen until sufficient 24-hour measurements are available to demonstrate support of the criterion. There were insufficient 24-hour data for 2004.
